

ISO 22000

ISO 22000 Food Safety Management Systems

ISO 22000 food safety management systems can be used by absolutely any organisation in the food chain, regardless of size, complexity or role, whether directly or indirectly involved. This includes:-

- Farms
- Animal food producers
- Ingredient producers
- Food Manufacturers
- Harvesters of wild plants & animals
- Organisations providing cleaning & sanitation services
- Packers/distributors
- Transportation, storage & distribution services
- Retailers
- Food service outlets
- Suppliers of equipment
- Suppliers of cleaning & disinfectants
- Suppliers of packaging & other food contact materials

Why should you use this standard?

This standard will help any organisation in the food chain:

- Provide products that are safe for consumers
- Demonstrate compliance with applicable food safety requirements and mutually agreed food safety customer requirements
- Communicate food safety issues effectively to others in the food chain
- Conform to their own stated food safety policy
- Achieve certification through 3rd party assessment.

Global QA Consultants offer a full consultancy service which takes you from where you are now, assistance with implementation and interpreting this Standard around the activities of your business. Our consultancy includes an initial compliance audit of your current activities against the requirements of the standard, new documentation design (if required), **ISO 22000 Quality Manual** and assistance in the choice of UKAS approved certification body and assistance throughout the audit process.

The main benefits of ISO 22000 include:-

BENEFITS TO YOUR COMPANY

- **ISO 22000** develops a preventative and proactive as opposed to reactive approach to food safety.
- Complements and fits with quality management systems such as **ISO 9001**.
- Creates a foundation to allow all parts of your **Food Safety Management System (FSMS)** to be brought together in a unified manner.
- Ensures compliance with current statutory and regulatory requirements.

BENEFITS TO YOUR CUSTOMERS

- Helps to identify process improvements while at the same time reducing customer complaints.
- Shows to all evidence of due diligence, reduces the likelihood of product recall so minimising adverse publicity while securing customer reputation.
- Strengthens customer relationships by enhancing satisfaction and reducing dissatisfaction.
- Enhances a company's image and reputation.

BENEFITS TO YOUR STAFF

- Improves internal and external communications.
- Helps to improve staff performance, motivation and work practice through the promotion of team spirit and structured working environment.
- Instils a greater knowledge of food safety issues throughout a company's structure.

Professional Support at Sensible Prices

Your Certification

... Our simple 4 step process!

Our Consultancy service

The prospect of implementing and achieving certification to a standard that you have little knowledge of and may have never even read can be daunting! The man hours spent interpreting a standard and attempting to create a compliant system can soon add up and may well not result in any great success!

Global QA Consultants are fully trained to interpret the standards for you - whilst our philosophy is to:

KEEP IT SIMPLE
- Whilst adding value

BS EN ISO 22000 Certificate assures your customers of your professionalism. It also improves your business process, helps you monitor and control service and quality standards and demonstrates your 'best practice' acumen to clients and industry bodies alike.

Global QA Consultants

Our Guarantee:

We work to a **fixed** consultancy fee with a

100%
guarantee of success.

So What's involved?

Global QA Consultants will take you through the potentially challenging and involved operation of achieving certification to **ISO 22000**.

Optional Industry Sector Schemes or codes of practice will be evaluated for possible incorporation into your QMS.

You will be guided through the entire process by an experienced consultant who will ensure that you are successful in achieving ISO Certification.

Initial meeting with you to understand your organisation and its needs:

We like to meet at your site – no obligation or cost involved. We need to find out what you do, establish the scope of the certification which will then enable us to provide you with a quotation for our services.

Consultant Assigned

A dedicated consultant is assigned to your project. They will: interact with directors, management and personnel. Convert your shared knowledge into a working quality management system. Provide in-house training on all elements of the system. Make regular visits on-site to advise on structured implementation and how to generate evidence that you are working to the system.

Assess the compliance of your existing processes and procedures against the Standard advising accordingly on any changes or additions that need to be made. These are tried and tested, simple and effective management controls avoiding unnecessary systems and paperwork.

QMS Documentation

Your consultant will work to improve your business and eliminate unnecessary paperwork. They will assist in producing essential documented information in order to provide evidence that you are working to the system for continual improvement, training and assessment purposes.

Your Global QA Consultant will also create your own documented Quality Management System (QMS) specifically for your business.

Assistance in Application for Certification Body (CB) Assessment.

We will advise you of the various BRC approved certification bodies competent to audit your system, obtain a quotation from the CB of your choice and arrange dates for assessment.

Its just like learning to drive - we will teach you but you need to have an independent test (audit) to ensure you understand what you are doing and you are doing what you say you are doing!

The assessment process can be daunting to those experiencing it for the first time. Your Global consultant will attend during the audit and help you to point your assessor in the direction of the evidence they are seeking.

Simply Celebrate

Our management systems achieve **100%** first time certification rates with UKAS Accredited Certification Bodies.
